

CRIF: Tajikistan's First Credit Information Bureau Begins Operations

CRIF, the Credit Information Bureau of Tajikistan (CIBT) and the International Finance Corporation (IFC), the World Bank Group member institution specializing in private sector development, came together to launch the technical and business operations of the first private credit bureau in Tajikistan.

The event marked the fact that the credit bureau platform system developed by CRIF is now open to start gathering positive and negative credit information on individuals and businesses from eligible Tajikistani lending institutions, banks and microfinance institutions, who can in turn query the system to see the credit histories of their clients.
