RPCD.RRB.RCB.BC.No. 13/03.05.33/2014-15

July 15, 2014

The Chairmen/Chief Executive Officers,
All Regional Rural Banks / State and Central Co-operative Banks
All Credit Information Companies

Dear Sir/Madam,

Data Format for Furnishing of Credit Information to Credit Information Companies and other Regulatory Measures

A Committee to Recommend Data Format for Furnishing of Credit Information to Credit Information Companies (Chairman: Shri Aditya Puri) was constituted by the Reserve Bank of India (RBI). The Report of the Committee was placed on RBI's website on March 22, 2014 inviting comments on the recommendations of the Committee. [A copy of the Report of the Committee](#) is attached for reference.

2. On examination of the recommendations of the Committee and the comments/suggestions received, it has been decided to implement the following recommendations with modifications, wherever appropriate:

- i. Creating Awareness about Credit Information Report (CIR): With a view to appreciating the benefits accruing to Regional Rural Banks (RRBs)/State Cooperative Banks (StCBs) and District Central Cooperative Banks (CCBs) arising out of better screening of loan applicants and usage of CIR in credit appraisal, Credit Information Companies (CIC) should regularly hold workshops for RRBs/StCBs/CCBs. [\[Recommendation 8.7\]](#)
- ii. Credit Information Reports (CIRs) / Credit Bureau Usage in all Lending Decisions and Account Opening: RRBs should include in their credit appraisal processes/loan policies, suitable provisions for obtaining CIRs from one or more CICs so that the credit decisions are based on information available in the system. In this context, as commercial borrowers' data is not adequately populated with the CICs, to start with, RRBs/StCBs/CCBs may institute board approved policies for credit bureau usage in all lending decisions and account opening to retail borrowers/consumer borrower segment. [\[Recommendation 8.9\]](#)

चेतावनी: रिज़र्व बैंक द्वारा ई-मेल, डाक, एसएमएस या फोन कॉल के जरिए किसी की भी व्यक्तिगत जानकारी जैसे बैंक के खाते का ब्यौरा, पासवर्ड आदि नहीं मांगी जाती है। यह धन रखने या देने का प्रस्ताव भी नहीं करता है। ऐसे प्रस्तावों का किसी भी तरीके से जवाब मत दीजिए।

Caution: RBI never sends mails, SMSs or makes calls asking for personal information like bank account details, passwords, etc. It never keeps or offers funds to anyone. Please do not respond in any manner to such offers.

- iii. Populating Commercial Data Records in Databases of all CICs: Presently, the databases of CICs are not adequately populated with commercial borrowers' data. A roadmap in regard to CICs populating their databases in respect to corporate borrowers is required to be laid out. For this purpose, RRBs/StCBs/CCBs are advised to report data in respect of their corporate borrowers to the CICs in a timely manner with immediate effect and CICs should populate their databases with commercial data records within six months. Therefore, after a period of six months, RRBs/StCBs/CCBs should also start using data available with the CICs in respect of commercial / corporate borrowers, under a Board approved policy. [[Recommendation 8.8](#)]
- iv. Standardisation of Data Format: With a view to streamlining the process of data submission by RRBs/StCBs/CCBs to CICs, it has been decided to standardise the formats for data submission by the RRBs/StCBs/CCBs to the CICs. The data format as per Annex I should be taken as the base for standardisation of data format for consumer and commercial borrowers. In respect of Micro Finance Institution (MFI) segment, data format as per Annex II should be taken as the base for standardisation. These formats should be put in use by the RRBs/StCBs/CCBs for reporting to CICs with immediate effect. The data format would be a non-proprietary reporting format and henceforth would be known as "Uniform Credit Reporting Format". The segment viz. consumer, commercial, and MFI will be denoted appropriately in parentheses, for example, "Uniform Credit Reporting Format (Consumer)". These should be uniformly adopted by the RRBs/StCBs/CCBs and CICs. [[Recommendation 8.10 \(a\)](#)]
- v. Technical Working Group: It has been decided by our Department of Banking Operations and Development to constitute a Technical Working Group comprising of representatives from Scheduled Commercial Banks (a member each from a Public Sector Bank, a Private Sector Bank and a Foreign Bank), Urban Cooperative Banks, Regional Rural Banks (RRBs), All India Notified Financial Institutions, CICs, NBFCs, HFCs, IBA and MFIN to institutionalize a continuing mechanism for reviewing and making changes where necessary to the data formats. This Working Group should review the data formats periodically, say once a year, and suggest modifications to the same. It would frame rules on all data fields for various data formats, viz. consumer, commercial and MFI. The data formats after finalisation by the Group will be submitted to RBI for approval. In order to implement the recommendations relating to the Technical Working Group, CIBIL will act as the convenor of the Group and take the lead to operationalize the recommendation. To start with, the Working Group may take up, on a priority basis, changes in the commercial borrower segment, where there is an urgent need to capture data required for sharing of information among member banks/FIs under consortium/multiple banking arrangements and to aid in implementation of the instructions at paragraph 2 (iii) above. The Working Group should also incorporate the additional fields as detailed in Annex III. [[Recommendations 8.10 \(b\)](#) and [8.11](#)]
- vi. Rectification of Rejected Data: CICs should share with RRBs/StCBs/CCBs the logic and validation processes involved in data acceptance so that instances of data rejection can be minimised. The reasons for rejection need to be parameterised and circulated among the RRBs/StCBs/CCBs concerned. Rejection reports should be

made simple and understandable so that they can be used for fixing reporting and data level issues. RRBs/StCBs/CCBs should rectify the rejected data and upload the same with the CICs within seven days of receipt of such rejection report. [[Recommendation 8.15](#)]

- vii. Data Quality Index: A common Data Quality Index would assist RRBs/StCBs/CCBs in determining the gaps in their data and also move towards improving their performance over a period of time. In addition, they would also be able to rank their own performance against that of their peers and identify their relative position. Annex 6 of the Report contains a draft Data Quality Index as agreed upon by all the CICs giving different parameters for assessing the data submitted by the RRBs/StCBs/CCBs. CICs and RRBs/StCBs/CCBs may adopt this Data Quality Index for assessing the quality of data submissions and make efforts towards improving data quality and minimising data rejections, within a time period of six months. [[Recommendation 8.16](#)]
- viii. Credit Score: To facilitate the understanding and interpretation of credit scores in an easy and consistent manner, it is advised that the CIBIL method of calibrating credit score from 300 to 900 be adopted by the other CICs also, within a time period of six months, so that they have a common classification of Credit Scores. [[Recommendation 8.17](#)]
- ix. Standardising Format of Credit Information Report (CIR): It is not considered necessary to standardise the format of the CIR as such differentiation is essential to promoting competition in the market. However, CICs should standardise the CIR terminology and also have some mandatory key fields. This would provide some comparability for the users between CIRs received from two or more CICs. The detailed aspects of a standardised CIR are furnished in Annex IV. [[Recommendation 8.18\(a\)](#)]
- x. Best Practices for RRBs/StCBs/CCBs: Every RRBs/StCBs/CCBs should take into account the best practices as detailed in Annex V while formulating or reviewing the policy and procedure under the Credit Information Companies (Regulation) Act, 2005 (CICRA) with the approval of their Board of Directors. [[Recommendation 8.25](#)]
- xi. Best Practices for Credit Information Companies: CICs should also take into account best practices as detailed in Annex VI and put in place a system for consumer complaint redressal with the approval of their Board of Directors. Such policy may be displayed on their websites. [[Recommendation 8.26](#)]

3. The other recommendations of the Committee would be further examined before taking a decision on their implementation. RRBs/StCBs/CCBs and CICs are advised to implement the instructions contained in this circular, as per the time schedule indicated.

Yours faithfully,

(A.Udgata)
Principal Chief General Manager

94	Account	No. of meetings missed	N	3	Required when present	
95	Account	Insurance Indicator	A/N	1	Required when present	Enumeration: Y- Yes N- No
96	Account	Type of Insurance	A/N	3	Required when present	Enumeration: L01 - Life Insurance L02 - Credit Insurance L03 - Health/Medical Insurance L04 - Property Insurance L05 - Liability Insurance L10 - Other
97	Account	Sum Assured/Coverage	N	10	Required when present	
98	Account	Agreed meeting day of the week	A/N	3	Required when present	Enumeration: MON - Monday TUE - Tuesday WED - Wednesday THU - Thursday FRI - Friday SAT - Saturday SUN - Sunday
99	Account	Agreed Meeting time of the day	A/N	5	Required when present	Should be in HH:MM format
100	Account	Dummy	A/N	30	Required when present	Reserved for future use

Changes in Data Format

[Recommendations 8.10, 8.11, 8.12 (b), 8.13 (c), and 8.15]

The Technical Working Group [please see paragraph 2 (v) of the circular] of banks, All India Notified Financial Institutions, CICs, NBFCs and HFCs, in association with IBA/MFIN, should review the data format periodically, say once a year and suggest modifications to the same. To start with, the Working Group may take up on priority basis changes required in the commercial segment and also in the following areas:

- i. Additional Fields in Data Format: Annex 5 of the Report contains certain additional fields for inclusion in data format (field names and their benefits). Accordingly, except for priority sector indicator field, other fields may be incorporated in the consumer data format. For vehicles, only vehicle make and registration number would be compulsory and not the chassis number. The registration number of property registered with Central Registry of Securitisation Asset Reconstruction and Security Interest of India (CERSAI) needs to be added by the CICs. [Recommendation 8.10 (b)]
- ii. Compromise Settlements: Data formats should include cases where compromise settlements have taken place and the reason for such compromise settlements. [Recommendation 8.10 (c)]
- iii. Detailed Product Classification: Banks/FIs should report detailed product classification to the CICs, e.g., car loans, commercial vehicles and construction equipment vehicles, under auto loans. CICs should also include the same in their reports to the banks/FIs. [Recommendation 8.10 (d)]
- iv. Information Regarding Relationship/Guarantor: Banks/FIs should capture certain information pertaining to relationship/guarantor fields of the Corporates viz. the Business category/type, Mobile/Telephone number, State/PIN-code/Country in their Core Banking Solutions/System and report the same to the commercial bureau of the CICs. [Recommendation 8.10 (e)]
- v. Members of Self Help Groups (SHG): Credit information on individual members of SHGs is critical to establish their credit history which would in turn foster growth of credit to the sector and promote financial inclusion. Therefore,

- banks/FIs may obtain data on individual members of SHGs and start reporting the same to CICs within six months. [Recommendation 8.10 (f)]
- vi. Cross Reporting: Guidelines for cross reporting, e.g., where individual is borrower and corporate is co-borrower, or vice versa, should be clearly intimated by CICs. The formats have fields to incorporate the data where consumer data will be reported in the consumer bureau and co-borrower will be reported in commercial bureau. [Recommendation 8.10 (h)]
 - vii. Reporting Days Past Due: Banks/FIs are mandated to report Days Past Due (DPD), for the credit facilities extended by them to consumers and corporates, while reporting to the CICs. [Recommendation 8.10 (i)]
 - viii. Treatment of Part Instalment Due: Banks/FIs are required to submit data as it is while qualitative information on what filters to apply based on amount and period could be done by the specified users and others who make use of the data. [Recommendation 8.10 (j)]
 - ix. Income Data: Income data of the borrowers under the consumer bureau may continue to be reported by the banks/FIs to the CICs. [Recommendation 8.10 (k)]
 - x. Identification Numbers: In the commercial segment, corporate identification number (CIN) and credit history of the directors of the company (based on DIN number) should be reported by the banks/FIs to the CICs and included by the CICs in their reports. [Recommendation 8.10 (l)]
 - xi. Software for Reporting: RBI is generally in agreement that there should be only one format for uploading and reverting reject data from the CIC as conversions/reconversions between formats like Excel/TUDF/Notepad, etc., during the process of furnishing data create validation issues. However, the Technical Working Group [please see paragraph 2 (v) of the circular] of banks, CICs, NBFCs, etc. may further deliberate on this issue and make suitable suggestions, if considered necessary to RBI in this regard. [Recommendation 8.10 (m)]
 - xii. Written-off and Settled Status of Accounts: While reporting their credit data, banks/FIs should use 'settled' status for denoting only specific situations where due to financial inability to repay as per original terms and conditions, either a principal or an interest waiver or both is provided to the customer. Banks/FIs need to be aware of such a situation prior to extending fresh credit to such a customer. Cases of wrong debits or contested charges should not be reported

by banks/FIs as 'settled' but as 'disputed' as per the new field suggested for inclusion in the data format at Annex 5 of the Report. [Recommendation 8.12 (b)]

- xiii. Major Reasons for Restructuring: This field in the commercial data format helps in understanding whether the restructuring of loan of the borrower was due to external/extraneous factors such as external environment, general downturn in economy, etc., or company / borrower specific issues such as change in management, performance of promoters, etc. [Recommendation 8.13 (c)]
- xiv. Minimum of One Identifier Field in Data: Data submitted by banks/FIs should be populated with at least one of the identifier fields, viz., PAN Card No., Passport No., Driving Licence No., Voter ID Card No., Aadhaar No., Telephone number, etc. [Recommendation 8.15]

Aspects of a Standardised Credit Information Report (CIR)

[Recommendation 8.18]

It is not considered necessary to standardise the format of the CIR as such differentiation is essential to promoting competition in the market. However, CICs should standardise the CIR terminology and also have some mandatory key fields. This would provide some comparability for the users between CIRs received from two or more CICs. However, the following aspects may be looked into by the CICs while preparing the CIR:

- i. Reporting Co-borrower and Guarantor: CIC should report co-borrower and guarantor details in the CIRs. This will facilitate deciding on the extent of exposure a bank/FI can consider on an entity. CIR should also give details for the loans availed by the customers in their capacity as borrower/co-borrower/guarantor.
- ii. Reporting Loans Declined: Information relating to loans declined in previous periods to customers/individuals need not be reported by CICs as such information could be prejudicial to the interests of the customer if a rejection in one bank/FI were to be used as a ground to reject the same customer in another bank/FI.
- iii. Unique Identity: CICs may provide a single CIR for one borrower even if the firm/person has more than one address by utilising a unique identification number such as PAN/Aadhaar No. provided by the bank/FI.
- iv. Information on Mortgage of Properties: Information on mortgages of properties is presently not being shared in the consumer bureau format. Banks/FIs may share this data with the CICs which would help them enrich their database.
- v. Multiple Borrowings: In the case of multiple borrowings of the same customer, involving both current and past accounts, information on various accounts may be provided in the order of live accounts, closed accounts and overall position of NPA /wilful default/suit filed status, with limits and liability for each account.
- vi. Linking Consumer and Commercial Reports: It is advised that commercial reports may capture the names of directors/ guarantors/ partners/ proprietor. CICs, while furnishing credit information report on borrowers who have some credit history stored in consumer, commercial and MFI databases, should

- include borrowers' history from all these databases giving comprehensive and complete credit history of the borrowers so that a financial institution could easily gauge the overall indebtedness of the borrowers to the lenders (banks/FIs/NBFC-MFIs/NBFCs, etc.).
- vii. Viewing Account Updates: CICs should provide a special 'view' / 'read-only' access to members to view account level updates in their database through a front-end interface. This would help banks/FIs to confirm or upload account updates / correction request and also in speedy resolving of discrepancies in the CIRs. Necessary steps may be taken to put in place a full-fledged online data correction mechanism as is available in some countries. CICs may make efforts to operationalise such a structure in India at the earliest and in any case within a period of one year, in the interest of customer service.
 - viii. Disclosing Disputed Information in CIRs: CIRs should also provide appropriate disclosures if any information contained therein has been disputed and the matter has not been satisfactorily resolved. If the customer so desires, his/her comment could also be added to the CIR. Certain fields pertaining to consumer dispute viz. dispute code, dispute description, dispute date and consumer comments on disputes (listed in Annex 5 of the Report) may be included in the CIR.
 - ix. Rectifying Wrong Information in CIRs: Banks/FIs as well as CICs should have arrangements in place to receive customer requests for rectification of data in CIRs. As a good practice to maintain high data quality, all erroneous data should be corrected at the source by the bank/FI that originally submitted the data. The CIC should not change borrower data unless the bank/FI submitting the data has rectified it at the source to obviate the risk of updated data being overwritten by erroneous data in the next submission cycle by the banks/FIs.
 - x. Corrected CIRs: In the case of any correction being carried out in the CIR, the CIC may provide a free copy of the corrected report to whom the report had been issued during the previous six months. However, the cost of the CIR may be borne by the members of CICs, if they are responsible for the inaccurate data.

Best Practices for Banks/FIs

[Recommendations 8.25, 8.31 and 8.34]

Every bank/FI should take the following best practices into account while formulating or reviewing the policy and procedure under the CICRA with the approval of their Board of Directors:

- i. Banks/FIs should ensure that the records submitted to CICs are updated regularly and that no instances of repayment, including that of the last instalment, are left unreported.
- ii. Instances of non-updation of repayment information could be avoided by centralising the issue of NOCs and providing information to CICs.
- iii. All banks/FIs should have nodal officers for dealing with CICs.
- iv. Customer grievance redressal should be given top priority especially in respect of complaints relating to updation/alteration of credit information.
- v. Grievance redressal in respect of credit information should be integrated with the existing systems for grievance redressal. Aspects relating to customer grievances pertaining to credit information may also be an integral part of customer service policy of banks/FIs.
- vi. Banks/FIs should abide by the period stipulated under CICRA and the Rules and Regulations framed thereunder in respect of updation, alteration of credit information, resolving disputes, etc. Procedure prescribed under Rule 20 and 21 of the Credit Information Companies Rules, 2006 in this regard should be adhered to. Deviations from stipulated time limits should be monitored and commented upon in the periodical reports/reviews put up to the Board/Committees of Board on customer service.
- vii. Updation of credit information should take place on a monthly basis or at such shorter intervals as may be mutually agreed upon between the bank/FI and the CIC.
- viii. All banks/FIs should give full customer information to the CICs. For instance, identifier information like PAN No., Aadhaar No., Voters ID Card No., etc., is not provided by banks/FIs for all records.
- ix. Banks/FIs should mandate the usage of CIRs in their credit appraisal process.

- x. First time borrowers' loan applications should not be rejected just because they have no credit history.
- xi. Banks/FIs and CICs should ensure that the credit records of borrowers are regularly updated by banks/FIs and that issues such as where repayment of the last instalment of a loan does not get reported does not arise.
[Recommendation 8.31]
- xii. With a view to decreasing court cases involving banks/FIs and CICs, complaints need to be addressed by them on an urgent basis. Banks/FIs and CICs should have a structured process of complaint redressal for which a Consumer Protection Committee under the Board should be constituted.
[Recommendation 8.34]

Best Practices for Credit Information Companies

[Recommendations 8.26, 8.27, 8.28, 8.29, 8.30, 8.31, 8.32 and 8.34]

CICs should take following best practices into account and put in place a system for consumer complaint redressal with the approval of their Board of Directors. Such policy may be displayed on their websites.

- i. CICs should abide by the period stipulated under the CICRA and the Rules and Regulations framed thereunder in respect of updation, alteration of credit information, resolution of disputes, etc. Procedure prescribed under Rules 25 and 26 of the CIC Rules, 2006 in this regard should be adhered to. Deviations from stipulated time limits should be monitored and commented upon in the periodical reports/reviews put up to the Board/Committees of Board on customer service. [Recommendation 8.26(a)]
- ii. CICs should have a structured and systematic process for redressing customer grievance redressal. [Recommendation 8.26(b)]
- iii. CICs should have a nodal officer for dealing with customer complaints. [Recommendation 8.26(c)]
- iv. CICs should have a system for conducting root cause analysis for complaints. [Recommendation 8.26(d)]
- v. Following a dispute regarding a CIR, if it is established that the reason for the dispute lies with the CIC itself or with the information provided by a member bank/FI to the CIC, the CIC may provide a free copy of the same type of CIR to the customer after correction of the credit information. [Recommendation 8.26(e)]
- vi. Data on complaints may be compiled by CICs on a quarterly basis. A quarterly review on complaints may be put up to the Board of Directors. [Recommendation 8.26(f)]
- vii. Updation of credit information should take place on a monthly basis or at such shorter intervals as may be mutually agreed upon between the bank/FI and the CIC. [Recommendation 8.26(g)]
- viii. In respect of commercial data, there are only limited records in the database especially for the newer CICs. The CICs may prepare an action plan and

- populate the database with historic data to improve their capabilities in the area. [Recommendation 8.26(h)]
- ix. Training should be organised by the CICs for member institutions on understanding the formats, importance of data reporting and how to improve data acceptance ratio. [Recommendation 8.26(i)]
 - x. Safeguards in respect of data usage in terms of Rule 27 of the Credit Information Companies Rules, 2006 by specified users should be built into in the agreements with the specified users. [Recommendation 8.26(j)]
 - xi. Whenever CIRs on the same borrower are accessed by more than one Credit Institution simultaneously, within a period of one month, an alert may be provided by the CIC to all the banks/FIs/Credit Institutions who have drawn the reports to avoid multiple financing for the same purpose/to avoid fraudulent transactions. [Recommendation 8.27]
 - xii. Alerts on borrowers who are changing their addresses/office are to be indicated to other credit grantors without disclosing the name of the banks/FIs. [Recommendation 8.28]
 - xiii. Behaviour pattern of the borrowers, viz., frequency of loans obtained, frequency of banks/FIs approached, etc., may be provided as a separate value added product by CICs. [Recommendation 8.29]
 - xiv. Customisation of reports as per the specific requirement of a specified user may be done as a separate value added product by CICs which are not already doing the same. [Recommendation 8.30]
 - xv. Banks/FIs and CICs should ensure that the credit records of borrowers are regularly updated by banks/FIs and that issues such as where repayment of the last instalment of a loan does not get reported does not arise. [Recommendation 8.31]
 - xvi. All CICs should be ISO 27001:2013 certified for Information Security. [Recommendation 8.32]
 - xvii. With a view to decreasing court cases involving banks/FIs and CICs, complaints need to be addressed by them on an urgent basis. Banks/FIs and CICs should have a structured process of complaint redressal for which a Consumer Protection Committee under the Board should be constituted. [Recommendation 8.34]
